ABOUT ME

Hello, I am a Java backend developer with a proven track record of delivering high-impact enterprise applications. Skilled in Spring Boot and the Java stack, with a strong focus on client communication, problem-solving, and agile team collaboration. Adept at creating robust web APIs and collaborating effectively to achieve project goals. A driven and results-oriented professional committed to excellence.

TECHNICAL SKILLS

Languages: Java, Javascript, HTML, CSS
Frameworks: Spring Boot, Spring Batch, Hibernate, Spring Cloud Microservices, JUnit, JMS
Developer Tools: Git, Eclipse, Postman, Mockito, Apache Tomcat, Maven, Docker, Swagger
Libraries: JasperReports , Log4j, Thymeleaf, Bootstrap, React
Database: MySQL, H2, DB2

EXPERIENCE

Project Engineer, Wipro   Oct. 2021 - Mar. 2024
Worked on 2 projects during the tenure (1st On-site at client location, 2nd Work from home)

- **IFMS,Govt of Gujarat(on-site)**
- Worked on creating REST API on Spring Boot for Stamp Report and PVU module.
- Creating Jasper Report for Stamp Reports module and integrating them with the backend.
- Resolving issues/tickets assigned on Jira for the PVU module and tested APIs on Swagger.

- **Telenor Myanmar/Grameenphone Ltd (off-site)**
- Worked on the CCPS and extensively on MFS module of the Grameenphone project (telecom company) web interfaces and their backend communication.
- Handled most of the applications under MFS module, contributing to APIs, creating Schedulers and resolving feature tickets/issues on Jira.
- Participated in daily stand-up meetings, handled client communication, and resolved priority client tasks.
- Guided and provided KT to a team of 2 new resources.

Director, Eon Marketing and Media Pvt Ltd   Jan. 2020 - Aug. 2021

- Cofounded a startup agency involved in social media management and product marketing using Augmented Reality and other media mediums.
- Handled a team of 10 interns.

PROJECTS

Inventory Management System | *Java,REST APIs,Spring Boot, Thymeleaf, MySQL, Spring Security,JPA, HTML,CSS*

- Personal stock management system for small businesses, using MySQL for data storage. Includes basic authentication with bcrypt hashing and role-based authorization.

Converter | *Java,REST APIs, Spring Boot, Spring Batch, MySQL*

- Custom Converter using Spring batch converts CSV and JSON data file to vice versa format. The unique feature is it doesn't use given class-based mapping to map and parse but does mapping for any data file with a given format
